

Leibniz-Institute for Solid State and Materials Research (IFW) Dresden
Helmholtzstraße 20, D-01069 Dresden, GERMANY

License contract for the use of FPLO[®]-22

The abovementioned Leibniz-Institute for Solid State and Materials Research Dresden will be referred to as “Leibniz IFW Dresden” in the following. Leibniz IFW Dresden owns the exclusive right of licensing the software product FPLO[®]-22 comprising the copyrighted full-potential local-orbital band-structure code (FPLO[®], release of the year 2022) and its user interfaces, both in source and object form. The software product FPLO[®]-22 will be referred to as “program” in the following. Main author of the program is Klaus Koepernik, employed at Leibniz IFW Dresden.

Licence holder can be

- (i) a scientist at a university or at a scientific research institute (individual academic licence) or
- (ii) a research group at a university or at a scientific research institute (academic department licence) or
- (iii) a university or a scientific research institute (academic campus licence).

The name and email address of the (i) researcher / (ii) head of group / (iii) representative of institution and the complete address of the institution has to be registered at our database of licence holders. We will not make use of these data for any purpose except licence handling and announcement of new releases of the FPLO code or related tutorials.

The licence holder will adhere to the following conditions upon receipt of the program:

1. All title, ownership, and rights to the program or to copies of it remain with Leibniz IFW Dresden, irrespective of the ownership of the media on which the program resides.
2. The licence holder will not supply a copy of the program to anyone for any reason whatsoever. This in no way limits the right to produce copies of the program for backup purposes, or for running on more than one computer system at the registered department or campus. The licence holder will refer any further request for copies of the program to Leibniz IFW Dresden (see <https://www.FPLO.de/>).
3. The licence holder will use the program only for academic research purposes.
4. The licence holder will not incorporate any part of FPLO[®]-22 into any other program system, without prior written permission of Leibniz IFW Dresden.
5. The licence holder will keep intact all copyright notices.
6. The licence holder understands that the Leibniz IFW Dresden supplies the program and its documentation on an “as is” basis without any warranty, and thus with no additional responsibility or liability. The licence holder agrees to report any difficulties encountered in the use of the program to Leibniz IFW Dresden (email m.richter@ifw-dresden.de).
7. In any publication the licence holder will cite the program as follows:

full-potential local-orbital (FPLO) code [K. Koepernik and H. Eschrig, Phys. Rev. B **59**, 1743 (1999)], version 22.xx-xx [<https://www.FPLO.de/>].

This reference is subject to changes if updated versions of the program will be provided. The notation “xx-xx” has to be replaced by the correct version number. If any default input settings of FPLO[®]-22 are changed, it is strongly recommended to document the chosen values in the related publication or in suitable supplementary information.

8. It is understood that modifications of the program can lead to problems where the authors may not be able to help. On the other hand, it would be appreciated if useful modifications or major extensions are reported to Leibniz IFW Dresden (email m.richter@ifw-dresden.de).
9. We understand that support for running the program cannot be provided in general, except on the basis of a joint project between Leibniz IFW Dresden and the research partner.

The licence holder accepts abovementioned conditions by signing below. The licence becomes active upon receipt of a signed copy by Leibniz IFW Dresden (email m.richter@ifw-dresden.de).

Please indicate the type of requested licence (i), (ii), or (iii):

Name, academic address, and email address of licence holder (i) or head of group (ii) or representative (iii) (please note, changes in any of the following data require a new licence contract):

Date, place, and signature of licence holder (i) or head of group (ii) or representative (iii):
